

ERP SYSTEMS ADMIN

JOB TITLE: ERP & Business Systems Administrator

LOCATION: Cape Town, Mowbray

Exciting opportunity available for an ERP & Business Systems Administrator for the FS Systems International Entity.

We are seeking a results-driven systems administrator to manage our business's SAP ByD and other systems & platforms. The role will be working with senior management to determine business needs, evaluating the performance of online business platforms, and developing and deploying SAP - ByDesign processes.

To ensure success as an ERP & Business Systems Administrator the individual should possess extensive knowledge of ERP & software platform administration and the ability to accurately configure and document processes. An accomplished ERP & Business Systems Administrator will be someone whose expertise results in optimized business operations.

FS Systems International Ltd protects lives and assets through cutting-edge fire and enterprise security technology, throughout Africa and LATAM. We are a diverse, agile team of intrapreneurs, specialists, professionals and collaborators - and we're a lot of fun to work with.

The team member we are looking to bring onboard will be responsible for:

- Determining business needs via consultation, business analysis, and targeted observations.
- Assessing existing business software platforms and recommending improvements.
- Developing and configuring customized SAP solutions.
- Administrating and configuring systems to create user-friendly interfaces and enhanced functionalities.
- Managing SAP operational functionality and ensuring smooth system operation.
- Troubleshooting and resolving issues to optimize performance.

- Providing SAP system internal support and internal end-user training.
- Performing rigorous documentation of SAP processes and presenting progress reports.
- Ensuring compliance with industry regulations.
- Keeping abreast of the latest SAP offerings, updates, and developments.

We are looking for someone with:

- Bachelor's degree, diploma or institutional certification in computer science, information technology, or similar preferred.
- Specialization in project & operational finance, project management, business administration, or a related field will be advantageous.
- SAP-accredited certification.
- At least 2 years' experience as an SAP or other ERP platform in a similar industry.
- Great collaboration, interpersonal, and communication skills.
- Superb analytical and problem-solving abilities.
- Excellent organizational and time-management skills.
